BikeYoke compatibility chart
Specialized Epic

	BikeYoke model
Bike model	EP02
Epic 2018 29"	190x51
Epic EVO 2018 29"	190x51
Epic 2019 29"	190x51
Epic EVO 2019 29"	190x51

ANNOTATIONS

shock size in mm	equivalent in inch
190x51	7.5x2.0

Standard shocks must have standard 12.7mm (1/2") diameter bushings and maximum 12.70mm eyelet width

Due to the numerously available shocks, please carefully check for sufficient clearence between tires, shock and frame parts in any position throughout the complete shock stroke, especially when bottoming out - frame or shocks parts must not collide in any position!

IMPORTANT NOTE:
Original Epic Shocks have a very small air can diameter! Many of th commonly available aftermarket shocks will not fit or at least not fit every frame size.
We recommend using the X-Fusion Microlite shock or a similarly sized shock
In any case, proper clearence needs to be assured.
